

120kWh Energy Storage Cabinet for Workshop Use

Ideal for deployment in industrial parks, supermarkets, hotels, office buildings, data centers, and solar charging stations, this high-efficiency energy storage solution enables users to reduce electricity costs, maximize ...

Power storage solutions for commercial and industrial projects (ESS) with a wide capacity range from 50 kW to 1 MW, with multiple power storage configuration options from 2 to 5 hours.

The 100/120kWh air-cooled solar + storage all-in-one cabinet is designed for commercial and industrial parks, small solar power plants, solar + storage + EV charging sites, community microgrids, and off-grid power ...

Powerful 50KW/120KWh hybrid energy storage solution with integrated inverter, BMS & EMS. LFP batteries, redundancy design. Expandable up to 120KWh.

The Deye Summer GE Series is a top - notch small - scale Commercial and Industrial Energy Storage System (C& I ESS) solution, designed to meet diverse energy needs with excellence.

Explore our advanced energy storage systems: 60kW/120kWh and 100kW/215kWh. Optimize your energy efficiency and reduce costs with reliable solutions.

This is a DC-coupled or AC-coupled compatible energy storage system. It can be seamlessly integrated with both new and existing commercial solar installations, storing excess solar energy produced during the day ...

20-120kWh modular battery storage system for commercial, solar, and backup applications. Scalable, high-voltage solution with LiFePO4 safety and BMS.

Delong 120kWh energy storage cabinet is equipped with a battery, inverter, high-voltage box, air conditioner, and fire protection system. The complete all-in-one design provides you with ultimate safety and convenience.

The modular design allows a choice of battery storage size with each energy block containing 12kWh of battery storage capacity. A minimum of 4 battery modules are required providing 48kWh. Up to an additional 6 ...
