

# Abuja Solar IP54 Battery Cabinet 500kWh

Bypass cabinet is designed to be used together with bidirectional battery inverter and PV inverter to realize seamless transfer between on and off grid mode automatically.

The battery pack is composed of EVE, CATL and BYD cells, which can be cycled more than 6000 times, with a maximum discharge depth of 100% and a low self-discharge rate.

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

100kwh 500kwh PCS Battery Cabinet IP54 Grid Support Hybrid Inverter Fireproof Outdoor Design for Industrial Power Backup

Stores up to 500 kWh of electricity, suitable for various high-demand applications. Equipped with a 3&#215;120 kW inverter (400A), enabling efficient charging of construction machinery and electric vehicles.

In addition to our popular products, the Stackable storage systems, the Wall-mounted solar battery and our Solar street light, we are excited to introduce our latest arrivals.

Each BESS container has either a 300kW or 500kW PCS system offering a complete, install ready energy storage system. All system systems are offered with either 400VAC or 480VAC 3 phase ...

What is Lithuania's largest battery storage facility?This project will become Lithuania's largest battery storage facility that is privately owned, boosting the country's total storage capacity by approximately ...

Our team specializes in turnkey solar storage solutions for tropical climates-- explore our Abuja implementation toolkit or share your biggest energy challenge below.
