

Battery recycling Paraguay

Is there a recycling system in Paraguay?

There is currently no formal recycling system in Paraguay. Until there is one in place, it is up to us to take responsibility and action. Recyclables are valuable. They are an important income for the informal recycling community. They should not end up lost in landfills and rivers. 1. GET SMART 2. SEPARATE

Why is recycling important in Asuncion?

Diverting recyclables from the landfill will free up precious space and minimize further pollution in nature. Over 5000 informal recyclers collect recyclables from Asuncion's streets. They sort these items in their homes and sell direct to factories, or to 'middle men' who sell in bulk to the recycling factories.

What happens at Cateura landfill in Asuncion?

At Cateura, Asuncion's landfill, over 500 "Gancheros" sift through the city's trash looking for recyclable items to sell on to the recycling factories. They have 15 minutes to do this before the bags are pushed into the landfill. Cateura is overflowing with trash, and leaching chemicals into the river.

What happens if you dump trash bags in Asuncion?

By the time your trash bags have been crushed up and dumped at the landfill, most of the recyclable items in those bags are already contaminated and lose their value. At Cateura, Asuncion's landfill, over 500 "Gancheros" sift through the city's trash looking for recyclable items to sell on to the recycling factories.
