

Car battery 3 year warranty

What is a car battery warranty?

A car battery warranty is a promise made by the manufacturer to replace or repair the battery if it fails to meet certain performance standards or if it is defective. The warranty period typically varies between manufacturers, but most modern batteries come with a warranty that ranges from 3 to 7 years.

How long does a battery warranty last?

This means that prorated warranties cover your battery for a longer period of time, usually ranging from 18 to 48 months. On the other hand, free replacement warranties usually have a shorter duration, typically around 12 to 24 months. Now, let's discuss the warranty terms.

Does a car battery warranty cover defective battery components?

When it comes to car battery warranties, coverage for defective battery components is an important factor to consider. A warranty that covers defective battery components ensures that you're protected against any faults or malfunctions in the battery itself.

What are the different types of car battery warranties?

Let's dive in! There are two types of car battery warranties: prorated warranties and free replacement warranties. Prorated warranties offer longer durations and prorated refunds or credits, while free replacement warranties have shorter durations and provide free replacement batteries.
