

Corrosion-resistant outdoor cabinets for Australian charging stations

Do corrosive storage cabinets comply with Australian standards?

Yes. Each of our corrosive safety storage cabinets complies with the relevant Australian Standard: AS 3780 "The Storage and Handling of Corrosive Substances". Refer to the respective Standards for further specifications and conditions of use. Do you supply outdoor corrosive safety storage cabinets?

Can corrosive storage cabinets be used outside?

Yes. As well as small and large corrosive safety storage cabinets, you can buy cabinets designed specifically for outdoor use. What's the difference? An outdoor corrosive storage cabinet is finished with a weather-resistant coating to withstand exposure to the elements

Which corrosive storage cabinets are available?

Our heavy duty corrosive safety storage cabinets are available in polyurethane or metal. Polyurethane cabinets are manufactured from polyethylene plastic material which provides superior resistance for the storage of corrosive chemicals which are highly aggressive to metal.

How many litres can a corrosive storage cabinet hold?

Choose from cabinets for as little as 15 litres up to 250 litres. We supply countertop or under bench corrosive safety storage cabinets, as well as cabinets suitable for indoor or outdoor use. Our heavy duty corrosive safety storage cabinets are available in polyurethane or metal.
