

Earthquake-resistant energy storage containers for Nordic communities

The Nordic region benefits from large hydro reservoirs that provide excellent and cost-effective energy storage options, which are already being efficiently utilised.

A 7.3 magnitude earthquake struck Port Vila on 17 December 2024, claimed 14 lives, destroyed critical infrastructure, and displaced over 2000 people who needed to stay in evacuation ...

Just last month, Stockholm unveiled Northern Europe's largest lithium-ion storage array - 150 connected containers storing enough energy to power 45,000 homes during winter blackouts. But how did this ...

A community struggling, yet unbroken & WHO's people centered response The hardships these individuals face reflect the wider struggles of millions displaced by the earthquake. Safe water, ...

Based on Marsh's experience in advising BESS owners in the Nordics, cold climate challenges, ensuring safety, and optimizing spacing are key topics that are discussed for BESS ...

On 6 February 2023, a series of large earthquakes hit southern Türkiye and northern Syria, followed by hundreds of aftershocks. Thousands of lives were lost in the initial earthquakes and thousands more ...

On 25 April 2015 at 11:56 NST, with a mighty shudder, the earth released the pent-up seismic energy trapped within in the form of an earthquake that lasted 55 seconds. That brief span of ...

Working closely with the government and partners, WHO is supporting to respond to the urgent health needs of the affected population A 6.4 magnitude earthquake hit Nepal's Western ...

On 28 March 2025, two powerful earthquakes struck central Myanmar's Sagaing Region near Mandalay. The first, with a magnitude of 7.7, occurred at 12:50 p.m. local time, followed by a ...

An earthquake is a violent and abrupt shaking of the ground, caused by movement between tectonic plates along a fault line in the earth's crust. Earthquakes can result in the ground ...

This Northern Europe project implements a large-scale containerized energy storage solution to support utility-scale energy storage and grid stability.

The Oslo Energy Storage Container House isn't just hardware--it's a blueprint for resilient energy networks. Whether you're a city planner or an off-grid resort owner, modular solutions offer flexibility ...

Earthquake-resistant energy storage containers for Nordic communities

SEB Nordic Energy has formed a strategic partnership with energy storage company Ingrid Capacity to address the power deficit in southern Sweden. The fund will provide the financing ...

Our storage systems feature seismic-resistant, moment-resisting reinforcements, offering the strength and flexibility to evenly distribute seismic forces and absorb energy ...

Sagaing earthquake in Myanmar On 28 March 2025, two powerful earthquakes struck central Myanmar's Sagaing Region near Mandalay. The first, with a magnitude of 7.7, occurred at ...

The Nordic energy storage container sector has grown 42% since 2020, driven by Europe's push for carbon neutrality. These modular systems solve critical challenges in renewable energy adoption - ...
