

Latest ranking of national hydrogen energy base stations

How many hydrogen refuelling stations are there in 2024?

Around 1,160 hydrogen refuelling stations were in operation worldwide at the end of 2024, which represents a further increase compared to the previous year. This also includes 384 hydrogen refuelling stations in China. New to the list of countries with hydrogen refuelling stations in operation are New Zealand, Bulgaria and Slovakia.

Which countries have the most hydrogen stations?

(Image: H2stations.org) Asia leads by a wide margin, boasting 748 active stations. China accounts for the largest share at 384, followed by South Korea with 198 and Japan at 161. Notably, South Korea added 25 stations - its third consecutive year at that pace - reinforcing its position as a major hydrogen hub.

Which countries have hydrogen refuelling stations?

New to the list of countries with hydrogen refuelling stations in operation are New Zealand, Bulgaria and Slovakia. There are also concrete plans for at least 377 additional refuelling station locations outside China. At the end of the year, Europe had 294 hydrogen refuelling stations, 113 of which were in Germany.

How many hydrogen refuelling stations are there in South Korea?

In South Korea, 198 refuelling stations were in operation and in Japan it is possible to refuel vehicles at 161 locations. Outside of China, South Korea was the world leader in the expansion of hydrogen refuelling infrastructure for the third time in a row with 25 stations in operation.

The Global Hydrogen Review is an annual publication by the International Energy Agency that tracks hydrogen production and demand worldwide, shedding light on the latest ...

The sparse network of refuelling stations is one of the reasons why hydrogen for cars is not catching on. This is made abundantly clear by a new report.

In 2024, around 125 new H2 refueling stations were opened worldwide: 42 in Europe, around 30 in China, 25 in South Korea, 8 in Japan and 13 in North America.

The Global Hydrogen Station Database is a comprehensive, Excel-based resource that provides detailed information on hydrogen fueling stations deployed worldwide. This database serves ...

Milestone reached: over 1,000 hydrogen refuelling stations in operation worldwide in 2024 Munich. In 2024, around 125 new hydrogen refuelling stations were opened worldwide: 42 in Europe, ...

1000 hydrogen refueling stations in operation globally, with a six-fold increase forecast by 2030 By the end of 2023, there were 1,063 hydrogen refueling stations (HRS) in operation in 35 ...

Munich. In 2023, 37 new hydrogen stations opened in Europe, 12 in Japan, 29 in South Korea and 7 in North
