

# Maldives mobile outdoor solar power hub

Ocean Sun and Canopy Power have teamed up to launch an innovative 2MWp floating solar power system at Soneva Secret, a luxurious resort in the Maldives.

Marketed locally as Project Luminosity, the mixed-use renewable hub will combine solar generation with energy storage and auxiliary facilities for research and tourism.

The Project Solar City will be located approximately 4 kilometers offshore from Hulhumalé; and will include the installation of a submarine cable interconnecting the solar platform to the national ...

Now, one of the first sights for any of the 1.7 million tourists visiting the Maldives will be that of the 5 MW solar installation on the highway linking the airport island to Male and its satellite town of Hulhumale.

Canopy Power designed and built the solar-battery microgrids that currently provide approximately 40-45% of the power needs of the Fushi and Jani resorts.

In April 2024, the Government of the Maldives issued Abraxas Power the first permit under the Special Economic Zone Act to construct a 100 MW floating solar renewable energy project within newly ...

According to the Ministry of Economic Development, the permit authorises the developer to construct and operate a 100MW floating solar photovoltaic (PV) project in a lagoon located ...

This authorisation enables Abraxas Power Corp. to develop and operate a 100MW floating solar photovoltaic (PV) project at a lagoon situated approximately 4 to 5 kilometres from ...

Canadian energy transition developer Abraxas Power Corp has obtained an environmental approval for its 100-MW floating solar project in the Maldives, allowing it to shift from ...

The floating solar island is expected to have a profound impact on the Maldives. By cutting carbon emissions by 100,000 metric tons annually, the project aligns with the country's ...
