

Microgrid Product Line

ELM MicroGrid offers a full product lineup of Battery Energy Storage Systems ranging from 20kW - 1MW with parallel capabilities.

It is designed to simplify and optimize the integration of Distributed Energy Resources (DERs)--like generator (Genset), solar photovoltaic (PV) and Battery Energy Storage Systems (BESS)--that are ...

L3Harris has joined the low-cost standoff munitions market with its "Wolf Pack" concept of kinetic (Red Wolf) and electronic attack (Green Wolf) vehicles.

The US Department of the Navy has selected L3Harris Technologies' Red Wolf launched-effect vehicle for the US Marine Corps' Precision Attack Strike Munition program to enhance the ...

In May 2025, the U.S. Marine Corps revealed Red Wolf as the designation of the mystery missile that NAVAIR (Naval Air Systems Command) tested in November 2024.

US Naval Air Systems Command has selected L3Harris Technologies to develop the Red Wolf vehicles for the Precision Attack Strike Munition initiative of the Marine Corps. This selection is ...

Turnkey microgrid control solutions include electrical system protection, cybersecurity, real-time controls, integration with existing infrastructure, and more.

HPS products can make your microgrid function.

L3Harris has introduced Red Wolf and Green Wolf, a new pair of aerial munitions built for swarming operations, electronic attack, and long-range precision strikes.

L3Harris' Red Wolf systems will fill a gap in modern warfare with long-range precision weapons capabilities. The Navy's selection builds off 52 launched effects vehicle flights, including ...

The US Marine Corps conducted a successful test of the Red Wolf munition. During the test, a Marine attack helicopter launched a Red Wolf missile successfully against a sea-based target.

The Generac PRC is a ready-to-deploy microgrid islanding solution that offers grid failure detection, sub-cycle grid isolation, and protected grid resynchronization.

Microgrids that incorporate renewable energy resources can have environmental benefits in terms of reduced greenhouse gas emissions and air pollutants. In some cases, microgrids can sell power ...

Microgrid Product Line

Microgrids utilize battery systems to store electricity generated on-site, offering a more efficient alternative to traditional power systems. They can deliver stored electricity during outages or when ...

The U.S. Marine Corps has successfully test-fired the Red Wolf launched-effects vehicle from an AH-1Z Viper helicopter during a low-altitude trial over the Atlantic Test Range, according to ...

With the ability to isolate from the primary electric grid, Eaton's microgrids provide load control and optimize energy usage. Eaton's turnkey services help customers develop and achieve a reliable ...
