

Namibia Industrial Energy Storage Project

The project is the first utility-scale BESS in Namibia and the Southern African region and will eventually establish a 58MW / 72MWh battery energy storage system at the Omburu substation in the Erongo Region. ...

The Namibia Power Corporation (NamPower) has opened the Initial Selection stage for the engineering, procurement, and construction of the 45 MW / 90 MWh Lithops battery energy storage system ...

WINDHOEK, Oct. 15 (Xinhua) -- Namibia has received the first shipment of equipment for its 51-megawatt (MW) Omburu Battery Energy Storage System (BESS) project, the country's first utility-scale battery installation ...

JV member Narada Power will supply lithium iron phosphate (LFP) battery storage for the project. Image: Narada Power. Key contracts have been signed for the first-ever grid-scale battery storage project in Namibia, ...

The first-ever grid-scale battery storage project in Namibia "signifies country's dedication to modernising energy infrastructure".

The Omburu Energy Storage Project is located in central northern Namibia, with a designed storage capacity of 51 megawatt hours. It can release electricity to the grid during peak hours and provide ...

Windhoek's Pioneering 54MWh Energy Storage Project Let's cut to the chase: In December 2023, Windhoek made history by launching Namibia's first grid-scale energy storage system. This 54MWh ...

Namibia's just made a game-changing move. In December 2023, the country signed contracts for its first utility-scale battery energy storage system (BESS) - a 54MW/54MWh project at Omburu Substation [1] [2]. But ...

In May 2024 the World Bank approved a US\$138.5 million loan for Namibia's Transmission Expansion and Energy Storage (TEES) project.

The shipment, which arrived at Walvis Bay, marks the first delivery of major components for the project and represents a significant step forward in the development of Namibia's first utility-scale battery ...
