

# National ranking of photovoltaic panel exports

Discover the latest rankings and insights into the top-tier solar panel manufacturers of 2024. Explore updated rankings and key information on leading companies in the solar energy industry.

Export value of solar photovoltaic cells worldwide in 2024, by leading country/territory (in million U.S. dollars)

Beginning in January 2017, we required some of the respondents for the annual survey Form EIA-63B, Photovoltaic Module Shipments Report, to report monthly data.

According to statistics, poly-crystalline and mono-crystalline silicon solar PV panels are now dominating PV panel supply market for solar PV power generation projects in the world due to their cheaper ...

Data source: U.S. Energy Information Administration, Form EIA-63B, Annual Photovoltaic Module Shipments Report Note: Monthly data for 2024 are based on a subset of the largest manufacturers ...

o The United States, despite being a leading PV market, is below the global average of other leading markets in terms of PV generation as a percentage of total country electricity ...

Today, China's share in all the manufacturing stages of solar panels (such as polysilicon, ingots, wafers, cells and modules) exceeds 80%. This is more than double China's share of global PV demand. In ...

Wood Mackenzie's score-based ranking assessed more than 40 leading module manufacturers across 10 countries. These companies accounted for 62% of global production ...

The 5 most lucrative exporters of solar power products are mainland China, Vietnam, Malaysia, Germany and Japan. By value, that quintet of leading exporters earned nearly three-quarters ...

This guide compares leading solar panel manufacturers worldwide, examines the resurgence of US manufacturing, and shows how businesses can source panels wholesale.
