

New photovoltaic bracket patent

Provided in the present invention are a photovoltaic bracket and a photovoltaic power station. The photovoltaic bracket comprises a cable assembly, anchoring assemblies and a support rod...

This application claims priority to Chinese Patent Application No. 2022115367450, entitled "PHOTOVOLTAIC SYSTEM AND FLEXIBLE BRACKET THEREOF" and filed on Dec. 2, ...

A photovoltaic tracking bracket system, comprising a main shaft (1), a synchronous shaft (2), a driving source (3), and transmission mechanisms (4). The main shaft (1) has a cavity (10).

The photovoltaic assembly support system is configured to support a photovoltaic assembly body. The photovoltaic assembly support system includes a support body, multiple lower ...

When Dadao Xinneng filed their latest photovoltaic bracket patent last month, even industry veterans raised their eyebrows. Why? Because solar mounting systems are about as exciting as watching ...

The photovoltaic bracket is a special bracket designed for placing, installing and fixing the solar panel.

This patent search tool allows you not only to search the PCT database of about 2 million International Applications but also the worldwide patent collections. This search facility features: flexible search ...

A module bracket (10) for supporting two adjacent photovoltaic modules (30) in a photovoltaic support (20). Each photovoltaic module (30) is provided with a mounting hole (301). The module...

An object of the present disclosure is to provide a flexible photovoltaic tracking bracket in which a photovoltaic module is not easily twisted, thereby effectively improving the structural stability ...

An object of the present disclosure is to provide a flexible photovoltaic bracket, which has beneficial effects of being easy to install, stable and reliable, and avoiding tearing of a photovoltaic module.
