

The massive Edwards Sanborn Solar and Energy Storage facility went online this month, and is changing how we look at solar energy.

Fortis Energy has signed a mandate letter with the EBRD to explore financing for a 270MW solar-plus-storage project in Serbia.

So, this review article analyses the most suitable energy storage technologies that can be used to provide the different services in large scale photovoltaic power plants. For this purpose, ...

By examining the costs and benefits of Antora Energy's BESS coupled to an on-base solar PV system within a microgrid, we provide a proof point for the role of LDES being deployed behind the meter for ...

Sunrun has forged a distributed power plant partnership with Pacific Gas and Electric Company (PG& E) using more than 1,000 customers' solar and storage systems to export energy to ...

Meralco PowerGen Corporation The world's largest solar-plus-storage project has made a critical achievement that confirms system readiness and safe connection to the Luzon grid.

Lockheed Martin delivered a 2 MWh GridStar™ Lithium energy storage system to SunPower, a global solar energy developer, as part of a 10 MW solar-plus-storage plant built for the U.S. Army's ...

The Los Alamitos Joint Forces Training base opened a 31 MW solar project and paired it with a 41 MWh energy storage system. This will reduce electricity costs while also providing backup power to the ...

The first phase of the MTerra solar project in the Philippines, set to be the world's largest solar-plus-storage site once completed, has achieved initial synchronization and energization to the ...

Elmya has started a new project in Kinglassie (Scotland, United Kingdom): a 30 MWp photovoltaic plant incorporating a 20 MW / 40 MWh battery energy storage system (BESS). This is the first project ...

# Photovoltaic energy storage plant on duty
