

Photovoltaic panel trimming machinery manufacturer

Edobo Company specializes in producing solar panel production lines. With 15 years of research and development experience, we have developed advanced technologies and processes to ensure that ...

Used for edge trimming of laminated PV modules to remove ...

Our state-of-the-art factory, backed by advanced technology, ensures exceptional manufacturing standards. As a wholesale supplier, we offer competitive prices, attractive discounts, and a ...

Used for edge trimming of laminated PV modules to remove excess encapsulation film, glass burrs, or backsheet overflow, ensuring clean edges and precise dimensions.

Trimming and framing machines are automatic equipment for trimming and framing processes in solar panel production line. Horad provide customers with trimming machines, corner grinding machines ...

Need an automatic trimming solution? Discover how the ECOTRIM A can automatically trim excess material from the edges of solar panels post-lamination.

The whole machine is equipped with a safety fence, which has the safety protection function; Automatic control of the equipment, and the operation process does not require personnel intervention;

First trimming machine Model: RO-XBT06 This unit is mainly applied to remove and clean the remains of excessive glue of the modules after laminated; it works self-acting cutting through program setting ...

Description Is an automatic trimming solution for edge cutting of the PV module. The machine loads and centres the panel from the long edge and trims simultaneously the four edges of the panel with 4 ...

Discover efficient Trimming & Framing Machines for Solar Panels to optimize your production line. Precision, speed, and reliability for every module frame.

Our automated Solar/PV modules production line includes a complete set of equipment, such as solar cells laser cutting, string soldering, welding, glass loading, layup, laminating, framing, J-Box ...
