

Power storage cabinet for data center 1000mm deep

Why do you need a data center enclosure?

Our reliable enclosures and accessories allow you to rapidly deploy an Ethernet/IP network on the plant floor while reducing installation time and life-cycle costs. Prevent energy costs from rising and better govern and reduce your data center's energy consumption with thermal management and containment products.

What is included in a colocation data center?

Mesh walls, demarcation rack with patch panels, locking door, ladder rack and fiber raceway up to first cabinet position or up to 10 feet. Security accessories include dedicated cameras, biometric hand scanners and more. Built-to-order mesh cabinets and colocation data center cages with space assigned based on power allocations.

Are custom cabinet configurations available in IBX data centers?

Custom cabinet configurations available in International Business Exchange (TM) (IBX) data centers globally. Fully enclosed, secured, and interconnected data center environments for custom, multi-cabinet deployments. Work with our industry-leading engineering experts to design, build, and optimize your critical data center environment.
