

Sunshade cloth on top of energy storage cabinet

Customise a solar battery cover online and protect your solar set-up from the harsh Australian sun. Contact us for custom designs and fast shipping.

The sun shield attached enclosure through pre-existing screw holes in the cover and/or bracketing it to the cabinet. This enclosure is ideal for use in desert areas. They can reduce up to 90% of direct solar ...

Another option is to build a wooden frame around the unit and then attach canvas or another type of fabric to the frame. This will provide shade and also help to keep the unit cooler.

Sun shields (solar shields) are fitted to external surfaces to assist in controlling the internal temperature of the electrical enclosure or electrical cabinet.

The shields reflect the sun's rays so they don't come in direct contact with the surface of the cabinet. The efficiency of the sun shields for enclosures can be increased by having them painted white.
