

# Wholesale 40ft Folding Containers in Europe

How much does a 40 ft container weigh?

This has the added benefit of keeping your container underside off the moist grassed area which will help your container structure to last longer. How heavy is a 40ft? The approximate weight of a standard 40ft is 3,510 kg. Whilst the high cube is approximately 3,690 kg.

Can I modify a 40ft container?

Alternatively, we can supply the container only for you to do the modifications yourself. Each used 40ft container is checked over by our engineers to ensure the container is in good condition structurally, by this we mean fully wind and watertight. You'll receive a free 3-month watertight warranty with used containers.

Where are the UK container depots located?

You can get delivery cost savings and convenience thanks to our 12 strategically located UK container depots. Depot locations include Essex, London, Felixstowe, Suffolk, Birmingham, Midlands, Manchester, Liverpool, Leeds, Coatbridge and more. And enjoy a less stressful delivery with the offer of a free virtual site survey.
