

Yaskawa solar inverter Specifications

Yaskawa Solectria Solar is pleased to introduce its most powerful XGI 1500 inverters, with the XGI 1500-250 models at 600 Vac, and the XGI 1500-200 models for 480 Vac service.

They are the most powerful 1500 VDC string inverters in the PV market and have been engineered for both distributed and centralized system architecture signed and engineered in Lawrence, MA, XGI ...

XGI 1500 inverters provide advanced grid-support functionality and meet the latest IEEE 1547 and UL 1741 standards for safety. They are the most powerful 1500 VDC string inverters in the PV market ...

High efficiency at 97.0% peak and 96.5% CEC, wide operating voltages, broad temperature ranges and a NEMA Type 4X enclosure enable this inverter platform to operate at high performance across ...

PVI PVI 50TL 60TL 3-PH TRANSFORMERLESS STRING INVERTERS Yaskawa - Solectria Solar's PVI 50TL and PVI 60TL are grid-tied, transformerless three-phase inverters designed for ground mount, ...

Interconnection Guidelines for Yaskawa Solectria Solar PVI 23-60TL Inverters (pdf) Interconnection Guidelines for Yaskawa Solectria Solar XGI 1000 and XGI 1500 Inverters (pdf)

15-page white paper that presents specifications for SOLECTRIA ® DC- and AC-Coupled PV and Energy Storage Solutions. [Download Document](#)

Access essential Solectria documentation, such as datasheets, manuals, guides, drawings, and technical resources to support every stage of your PV inverter projects from installation to long-term ...

These inverters include an enhanced DSP control, comprehensive protection functions, and advanced thermal design enabling highest reliability and uptime. They also come with a standard 10 year ...
